

Adrienne,

Thankyou for your email and your patience for my response.

My purpose and mandate focuses on that of the heart of the community and doing what is right for Bass as opposed to any party policy.

All of the six points you raise below seem like common sense objectives to how our state should progress.

Please rest assured you have my support on these points, should I be fortunate enough, to be trusted by the community of Bass on Election Day.

Any assistance you can provide by advancing my commitment would be warmly welcomed.

all the very best

Tubby Quinn
